

Project List

The purpose of the Project List is to give the parish leadership guidance in terms of which projects to proceed with. If a parishioner wishes to donate to a particular project, you may. On an offering envelope in the space marked 'Other' write in the name of the project. Monies donated for a particular project will be set aside in the Designated Funds until the full amount to do the project is raised.

Generally, projects over \$1,000 require Vestry approval to proceed, and less than that the Pastor and Church Wardens can approve, with the advice of the Parish Council as necessary.

At the Vestry Meeting on September 18, 2022, the Project List was amended and adopted, and the projects listed below have been approved as things that money can be raised for. This Project List will be reviewed at a future Vestry Meeting. Parishioners may propose additions to this list at that time.

Rank	# Votes*	Project	Status
1	10	Stained glass windows and storm windows	
2	9	Outdoor fellowship area	
2	9	Nave lighting	
4	8	Replace front doors	
5	6	Altar window	
5	6	Replace digital piano	
7	4	Remove chimney	
7	4	Upgrade ZOOM equipment	
9	2	Replace flooring in Vestry room and Pastor's study	
10	1	Replace Vestry computer	Computer replaced December 2022
10	1	Purchase video projector	

* Projects were listed on flip chart paper. Each person present was given four sticky dots and instructed to put dots on the projects they wished to see done.

Digital piano The digital piano was purchased in 1993 and the replacement cost in 2021 is \$5,038. As it is an essential piece of equipment, a contingency plan is needed so that it can be repaired or replaced when necessary.

Chimney When the furnace was replaced in 2021, it was vented to the outside of the building. Once the water heater is replaced, the chimney will no longer be required.

Video projector The one St. Stephen's uses is the property of Canon Ed. To purchase, one would cost approximately \$900.
